📁 rashii17 (LeetCode)

Skills

Languages: Java, C++, Python, HTML, CSS, JavaScript, SQL
Frameworks/Tools: React, Node.js, Express, REST APIs, MongoDB, Git, GitHub
Other: Debugging, Problem Solving, Communication

Education

Vellore Institute of Technology, Vellore *July 2023 – 2027*
Pursuing B.Tech. in Computer Science (Bioinformatics)

- **CGPA:** 9.01 , **Relevant Coursework:** OOPS, DSA, Design and Analysis of Algorithms, DBMS, CN

Maharani Gayatri Devi Girls' School, Jaipur *2011 – 2023*

- 3rd Rank in Science Stream — Subject Topper in Physics and Chemistry. Scored 92.6% in 12th Standard

Experience

Frontend Developer Intern *VIT, Vellore*
Aarvasa *Jan 2025 – March 2025*

- Built and deployed a scalable frontend using ReactJS; collaborated with backend developers to debug and resolve integration issues, improving performance and reliability.
- Worked in Agile sprints, participated in daily standups, and collaborated via GitHub for version control
- Gained startup development experience under VIT Technology Business Incubator.

Web Development Intern *Jaipur, Raj*
Anktech Softwares Pvt Ltd *June 2024 – July 2024*

- Applied systematic debugging and testing to ensure cross-browser compatibility, improving application responsiveness and accessibility. Developed interactive websites using HTML, CSS, and JavaScript.

Projects

Cashy – AI Finance App *Cashy- AI Finance App* [↗](#)

- Implemented secure SQL-based queries for transaction storage and retrieval.
- Focused on application scalability and business continuity with robust database design.
- Integrated Gemini 1.5 Flash for AI-driven receipt scanning and categorization.

Wheel Deal — AI-Powered Car Price Prediction System *WheelDeal* [↗](#)

- Built an end-to-end car price prediction system using Python, trained on a Kaggle dataset and enhanced through Selenium-based OLX web scraping for real-world data enrichment.
- Engineered and preprocessed key automotive features (brand, mileage, engine, transmission, etc.) to improve dataset quality and model reliability. Trained and tuned a Random Forest Regressor achieving an R^2 of 0.93.

Certification

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional
Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

Achievements

- **Best in Track** — VIT Central Hackathon *Yantra 2025*.
- **President**, Sol Toastmasters Club — Led 40+ members, strengthened presentation & communication skills.
- **Captain**, VIT Table Tennis Team; State-Level Player.
